TOLOSTI'S BOOK.

By arrangement with the American publisher, the good Mr. Wanamaker has forbidden the transmission of the Kreutzer Sonata through the mails. The consequence is that the demand for it cannot be supplied-not because the mails don't bring it, but because the express cannot bring it fast enough. I do fervently hope that the good Mr. Wanamaker will get enought profit out of the interdiction partly to reimburse him for the outlay which he made in buying his appointment; the cruel necessity which compelled him to stop making postmasters sell his ready-made trowsers, excited the compassion of every honest heart. Let us rejoice that kept in a patent refrigerator. He a way has been found to recoup the righteous, who, as the good book justly says, are never forsaken. God sometimes abandons them, but they always stick to themselves .- Bierce in Examiner.

The Calfornia Way.

Says the Gilroy Gazzett: The Halfmoon Bay Advocate believes in making those wishing to dance pay the fiddler. Dancing candidates will chassez in advance to the tune of \$25 each for Assemlyman, Superior Judge, Sheriff District Attorney Treasurer, etc. A \$20 waltz is for Recorder, Tax Collector, Assessor, Coroner, etc., while a little jig of \$10 is in order for the Supervisors | Civil Engineer, Surveyor and and precinct officers. The Gazette believes in equal and exact justice to all. It will cost the Governor CLAIMS FOR PATENT, and will do all or Constable just \$5-no more and no less-to announce. If any. body wants a full and true biography, that will be a matter for negotiation. Taffy will be charged for and the editor must be paid for his work.

A reporter who tried to interview Admiral Watson, of the English flagship Bellerophon, on the Behring Sea question, had to be content with the following opinion of the American girl: "I think she is tip top. I am not doing any flirting at my time of life, but I think she would be an awfully nice girl to flirt with. She is so vivaciously brilliant, such an excellent conversationalist and has so many various and varied charms that if I were only a single man I would succumb at once." The Admiral is probably a trifle groggy on the Behring Sea question, but in regard to the American girl his head is level .-

Rev. Thomas K. Beecher of Elmira, who has the interesting but dangerous habit of saying what he thinks, has been interviewed in Oregon, and said that the Puget Sound boom cities are preparing for a collapse, and general prostration of business similar to that of which Southern California has furnished so melancholy an example. The newspapers in Seattle, able to agree for once, are now stoping the prophet of disaster.

Annie Laurie, the Examiner reporter, has just exposed the cutrate system of the canners and packers in San Francisco. It appears that she sought work in the guise of a seedy servant girl and finally secured it in a cannery. When she quit work at the end of an eight hours shift she had 26 cents coming to her. No wonder the Eastern girls get sick of the Golden West.

The little English sparrows have learned a new dodge since electric lights replaced gas in the New York City parks. When the currents are turned off at dawn the bottoms of the globes are filled with hundreds of insects which have been attracted by the light and killed. The sparrows come around after the globe has cooled off, slide down the carbons and devour the insects.

Another big domestic row is being kicked up in the aristocratic families of "hold Hingland."

Good Agricultural Land for \$10 to \$20 per Acre.

The Pacific Improvement Company has recently purchased twelve thousand acres of land in the heart of Tehama Counly, for the purpose of promoting subdivision and settlement. embraces lands from first class Sacramento Vasley agricultural land, to land of fair average quality, and is offered at from \$0 to \$20 per acre, in subdivisions of 40, 80, 120, 160 and 320 acres.

The te ms upon which these lands are offered are especially a tractive. They will be sold in subdivisions, as above indicated, be the rayment of interest only for three years, at which time the purchaser can begin the payment of principle by paying the first of five equal annual installments. Thus no pair of the principle is to be paid for three years and then the purchaser is to have five years in which to pay five equal annual installments, with interest at the rate of seven per cent per annum, making payments extending over a period of eight years. Intending purchasers are assured that this is an opportunity to purchase land of fair average quality at 810 per acre, and sood agricultural land at \$20 per acre, with other grades of land at prices to correspond between these figures.

The assertion is frequently made that good lands, suitable for general farming and especially adapted for fount owing annot be bad in California for less than from \$60 to \$100 per acre. An examination of the land subject of this advertisement will prove to home seeker that this is an opportunity for the purchase of good agricultural land at \$20 an acre, and for qualities grading down to fair agricultural land at \$10 an acre on terms of payment which should make the disposition of these lands to actual settlers a result easy of accomplishment.

The primary object of the purchase of the back of land we the ba

plishment.
The primary object of the purchase of this body of land was the breaking up of a large holding for the purpose of promoting its settlement in smaller quantities and its devotion to dilligent husbander. bandry. For further particulars call upon, or ad-
